

Mindjet® MindManager®

Upgrade Chart

Upgrade to Mindjet MindManager 6 to take advantage of powerful new capabilities.

		MindManager Pro 6	MindManager Basic 6	MindManager X5 Pro
Core Mapping				
Capture Ideas	Capture ideas and notes directly in your map. Start using the instant brainstorming arrow.	✓	✓	✓
Topic Rollover	Options for quickly editing, moving, and resizing Topics.	✓	✓	
Menu Bar	Topic menu added; other menu actions reorganized.	✓	✓	
Hyperlinks to Web or Files	Link to any Web site, map or file, including graphics, spreadsheets, docs, PDFs and more.	✓	✓	✓
Select Map Content	Instantly select multiple topics with a single click and drag action.	✓	✓	✓
Insert Date/Time	Better manage map versions by inserting the current date or time into any topic.	✓	✓	✓
Keyboard Navigation	Quickly navigate through maps using the keyboard arrows.	✓	✓	✓
Paste Special	Insert clipboard content as a bitmap, hyperlink, or file.	✓	✓	
Spell Check	Quickly identify and correct misspelled words.	✓	✓	✓
Print	Flexible printing options save time and effort.	✓	✓	✓
Map Markers	Organize maps using visual content defined in a dynamically updated legend.	✓	✓	✓
Multimap View	See all linked maps as thumbnails in order to easily navigate through them.	✓		✓
Presentation Mode	Maps make a powerful presentation tool, offering the ability to focus on specific levels of content.	✓	✓	✓
Outline View	Edit maps in Outline View; changes are immediately reflected in Map View.	✓	✓	✓
Information Organization				
Balance Map	Automatically distributes Topics to visually balance your map.	✓	✓	
Insert Attachments	Attach multiple files to a Topic.	✓		
Charts and Spreadsheets	Capture key spreadsheet data and display in a map. Easily convert spreadsheet data into charts.	✓	✓	
Custom Properties	Add custom fields to a Topic; define their properties to create a reusable set of information.	✓		
Organization Chart Layout	Quickly visualize team structures.	✓	✓	
Professional Map Style	Default styles for Topics, borders, backgrounds, and more ensure professional-looking maps.	✓	✓	✓
Topic Numbering	Easily keep track of Topics and sub-Topics; the numbering format persists as Topics are added, deleted, and moved.	✓	✓	
Bookmark	Use bookmarks to identify and quickly find Topics.	✓		
Summary Boundaries	Quickly group related Topics.	✓	✓	
Export Label	Easily identify and mark Topics for export.	✓		
Visual Elements				
Advanced Formatting Toolbar	Toolbar selections - including Line Style and Anchor, Text and Image Alignment - benefit power users.	✓	✓	

		MindManager Pro 6	MindManager Basic 6	MindManager X5 Pro
Text Marker	Use markers to speed and clarify communications.	✓	✓	
Format painter	Instantly apply Topic format to other Topics using a single click and drag action.	✓	✓	✓
Floating and Callout Topics	Annotate information on your map using Floating and Callout Topics.	✓	✓	✓
Styles	Customize the look and feel of your maps using a variety of professional styles.	✓	✓	✓
Boundaries	Use boundaries to visually group related information or emphasize Topics.	✓	✓	✓
Relationships	Visually draw a connection between two Topics using colorful arrows and lines.	✓	✓	✓
Wizard Framework	Use wizards and templates to quickly create and customize maps for your own use.	✓	✓	✓
Map Templates	Save time by reusing specific topics, formats, and/or content.	✓	✓	✓
Seamless Integration				
Microsoft PowerPoint	Preview slides and fine-tune your presentation in MindManager before exporting to Microsoft PowerPoint.	✓	✓	✓
Microsoft Word	Plan and organize large documents, then export to Microsoft Word or import documents into maps.	✓	✓	✓
Microsoft Excel	Link your map to a Microsoft Excel spreadsheet data range. The spreadsheet displays in the map; change the spreadsheet and the map automatically updates.	✓		
Microsoft Internet Explorer	Link a web page title to your map and import web page information as a Topic.	✓	✓	
Microsoft Outlook	Integrate with Outlook Email, Calendar, Contacts, Tasks, Notes and Folders.	✓		✓
Microsoft Project	Brainstorm project components, assign tasks and resources and then export to Microsoft Project.	✓		✓
Microsoft Visio	Create process diagrams by exporting map content to Microsoft Visio.	✓		
PDF Export	Publish maps to PDF format for platform independent distribution.	✓		✓
Bitmap Export	Export maps or selected topics in bitmap format, then paste into other programs.	✓	✓	✓
Export as Web Page	Instantly convert map content into professional looking web pages for publishing to a Web site or intranet.	✓		✓
Collaboration				
Task Information	Efficiently plan projects by assigning timeframes and resources to topics. Data appears below the topic for easy reference.	✓		✓
Review Mode	Easily track topic changes made by others. Use the new Review toolbar to quickly accept and reject review topics.	✓		✓
Topic Alerts	Get reminded when a Topic action is required. MindManager Topic Alerts synchronize with your Microsoft Outlook Calendar enabling you to stay current on topic due dates.	✓		
Pack & Go	Zip maps with all linked files for quick and easy distribution.	✓	✓	✓
Timer	Keep track of time remaining to stay on schedule.	✓		
Extensibility				
XML Transformation	Use industry standard XSLT scripts for input/output and content conversion.	✓		✓
Map Parts	Create custom Map Parts and productivity solutions.	✓		✓
