MindManager helps transform thoughts and knowledge into dynamic visual maps, diagrams, flowcharts, matrices, and more. Connect everything that matters to your work all in one place, so you can think more clearly, make better decisions, and get to where you want to be.

Information is invaluable, but it's also overwhelming

MindManager simplifies the way you process and manage information, by turning scattered ideas and data into clear visual maps that are easy to build, organize, evolve and share. Every day, millions of people in thousands of global organizations use MindManager to more effectively think, plan, communicate, collaborate and get things done across their most business-critical tasks.

Create with ease, communicate with impact

The information surrounding your work is complex. Managing it doesn’t have to be. Capture, organize, manage, and share information more easily, elegantly, and efficiently with the industry-leading mind mapping and visual work management software that simplifies complexity, stimulates creativity, and inspires action.

MindManager helps transform thoughts and knowledge into dynamic visual maps, diagrams, flowcharts, matrices, and more. Connect everything that matters to your work all in one place, so you can think more clearly, make better decisions, and get to where you want to be.

MindManager for Mac 13

Technical Requirements:
> macOS 10.13 (High Sierra) to 10.15 (Catalina)
> 500 MB available disk space
> 1024 x 768 or greater display resolution
> Broadband internet connection required for certain features

"We use MindManager for large scale projects to create a "40,000 foot" view to easily see what's going on. From there we can navigate to a subproject to discuss or get a visual of what needs to happen."

Jason Everett, OCI Beaumont
